

WP T2

T2.3 - A proposal of TCI (TRANSBASE)

Developed by Piraeus Chamber of Small and Medium Sized
Industries(BEP)

Athens, 4th December 2019

T2.3 - A proposal of TCI (TRANSBASE) (1/2)

- **NewBrain PPs involved and cooperating**

(a) BEP, (b) Igoumenitsa Port , (c) North Adriatic Sea Port Authority, (c) Southern Adriatic Sea Port Authority, (d) Port of Bar

- **Description of the TRANSBASE**

Sharing strategic functions and harmonising ports processes through a common Port Community System (PCS), connecting ports of Greece (Piraeus, Patras and Igoumenitsa) with Adriatic ports

- **Time frame of the TRANSBASE:** From 2021 to 2024 (3 years project)

- **Maturity level of the TRANSBASE**

The maturity level of the project depends on current information systems that Port Authorities use. In any case, most of the ports that are suggested to participate in this project have implemented already studies for the development of a PCS or are using already a PCS.

T2.3 - TRANSBASE

(2/2)

- **Stakeholders involved**
 - NEWBRAIN PPs (as mentioned in previous slide)
 - Extra Stakeholders: Piraeus Port Authority, Patras Port Authority
- **Investment cost and management costs of the TCI:** Approximately €1.5M- €3M
- **Funding sources:** EU-funded project (e.g. INTERREG, CEF, etc.)
